

Company Description

TIS is the leading cloud platform for managing corporate payments and cash flows. TIS enable companies to make more efficient, more secure and more cost-effective payment transactions. In addition, TIS enables customers to make better decisions when analyzing financial and operational performance, based on real-time payment flows. All mission-critical processes related to payment transactions are integrated into a multibank-capable, audit-proof cloud platform. This is a single point of contact for enterprise customers when managing and analyzing their payment flows across the organization. TIS takes care of managing various payment formats, communication channels with banks, and ERP-agnostic integration. Offered as Software as a Service (SaaS), the ISO certified TIS solutions are quickly up and running without the complexity and cost of a long IT project. www.tis.biz
