

Company Description

TreasuryXpress, a global FinTech provider and leader in frictionless treasury management solutions, was created with a simple aim – to give all companies powerful, cost-effective, and easy-to-implement Treasury Management capabilities that empower them to be able to work smarter!

Our solutions centralize 10,000+ bank accounts daily and process \$7BN+ in electronic payments annually – making it easy to achieve 100% bank visibility, manage end-to-end payment processing, and distribute critical reports automatically and efficiently. And, our rapid time-to-market and diverse hosting options make it easy for treasuries to do business with us.
