

## Company Description

Whether you are a corporate or a financial institution, we can provide you with an integrated range of services to manage your daily transactions through our Global Transaction Banking offering (GTB).

We can offer you an integrated range of services to help you with:

- your domestic and international payments
- your liquidity through the concentration of your cash
- your financing needs
- your international trading activities
- and your factoring and supply chain finance

In addition to these services, we can offer you hedging solutions designed with the specialists from our investment bank who are recognised worldwide for their expertise.

You can benefit from our international network where we are present in more than 50 countries. Combined with our in-depth knowledge of local markets, we can provide you with world-class bespoke solutions.
