

Company Description

Leveraging a global presence and more than 150 years of successful banking heritage in Asia, Africa and the Middle East, we deliver innovative, award-winning financial services solutions to power our corporate clients' ambitions. Our success - and that of our clients - is a direct result of our local expertise and strong domestic presence across our network in emerging markets.

We provide corporate clients with a comprehensive range of capabilities and solutions, from facilitating working capital needs to sophisticated capital raising solutions.

With a proud history as a trade bank, we offer a full scope of innovative, customised solutions in cash management, trade finance and securities services. As one of the first to recognise the importance of integrating its cash and trade businesses, we focus on facilitating your working capital and supply chain financing needs for, in and out of Asia, Africa and the Middle East.

To meet your risk management, financing and investment needs, we provide innovative foreign exchange, risk management, capital raising and corporate finance solutions.

And for corporates which are thinking of expansion, we provide innovative and pioneering solutions that can help accelerate that process. Capitalising on our comprehensive on-the-ground knowledge and strong international perspective, we provide customised solutions, especially in cross-border trade and investment flows, including corporate advisory, project and export finance, structured trade finance, and structured finance.
